

HT-GREASE 317

Features & Benefits

- Calcium Sulfonate
- Does not Contain Moly
- Extreme High Load Carry Protection
- Proven in Extreme High Temperature Application
- Excellent in General Equipment Lubrication

PRODUCT DESCRIPTION

HT-GREASE 317 is a calcium sulfonate complex grease that offers superior high temperature lubrication coupled with outstanding mechanical stability for minimized grease run out. **HT-GREASE 317** also provides extremely high load carrying capacity, optimized control of rust and corrosion, excellent water resistance and superior protection against heavy shock loads and severe equipment operation.

HT-GREASE 317 is proven in the toughest high temperature applications including brick kilns, steel mills, asphalt plant equipment and wheel bearings associated with disk brakes. **HT-GREASE 317** is excellent for high temperature bearing applications as well as shaker screens, cone crushers, high pressure die casting, conveyors, loaders, trucks and many other applications.

HT-GREASE 317 provides truly versatile, multipurpose and superior performance in high temperature service as well as in general equipment lubrication.
