GRIFLUBE® PREMIER UTH is a premium quality fluid for transmissions, hydraulic systems, oil immersed brakes and other ancillary systems fitted to agriculture tractors and off-road equipment. It is an exceptional universal tractor fluid specially formulated for use where a common fluid reservoir serves transmissions, final drives, and hydraulic systems.

APPLICATIONS:

- Tractors and other equipment using a common fluid to lubricate the transmission, differential and hydraulic systems
- Caterpillar power shift transmissions requiring a TO-2 Fluid
- Mobile equipment using Sundstrand hydrostatic transmissions
- Mobile and industrial hydraulic systems operating over a wide temperature range

FEATURES & BENEFITS:

- Incorporates a friction modifier to ensure proper noise-free operation of wet-brakes
- Excellent low temperature fluidity provides good response at low temperatures
- Field tests prove G&G Hydraulic Tractor Fluid provides excellent service in virtually all makes of construction and farm tractors
- Is frequently used as a single fluid to prevent accidental contamination or misapplication, and to eliminate the need to purchase and keep in inventory several products for most farm and construction equipment
